

## DAFFODIL CLASSIFICATION

	<p><b>Division 1 – Trumpet daffodil cultivars</b>            One flower to a stem; trumpets are as long as, or longer than the petals.            E.g. King Alfred, Barnum, Pink Silk</p>
	<p><b>Division 2 – Large-cupped daffodil cultivars</b>            One flower to a stem; cup is more than one-third but less than equal to the length of the petals.            E.g. Rainbow, Pink Charm, St. Patrick's Day</p>
	<p><b>Division 3 – Small-cupped daffodil cultivars</b>            One flower to a stem; cup is not more than one-third the length of the petals.            E.g. Polar Ice, Merlin, Barrett Browning</p>
	<p><b>Division 4 – Double daffodil cultivars</b>            One or more flowers to a stem, with doubling of the petals or trumpet or both.            E.g. Tahiti, Rip Van Winkle, Ice King</p>
	<p><b>Division 5 – Triandrus daffodil cultivars</b>            Two or more pendant flowers to a stem; the petals are reflexed (swept back).            E.g. Hawera, Ice Wings, Thalia</p>
	<p><b>Division 6 – Cyclamineus daffodil cultivars</b>            The characteristics of these daffodils are clearly evident. One flower to a stem, the petals are significantly reflexed and the flowers are an acute angle to the stem, with a very short neck.            E.g. February Gold, Jack Snipe, Little Witch</p>
<p>NB The characteristics for Divisions 5 to 9 are given for guidance only: they are not all necessarily expected to be present in every cultivar assigned to those divisions.</p>	

	<p><b>Division 7 – Jonquilla and Apodanthus daffodil cultivars</b></p> <p>One to five (rarely eight) flowers to a stem. The petals are spreading or reflexed. The trumpets are cup-shaped, funnel-shaped, or flared and usually wider than long. Usually fragrant.</p> <p>E.g. Jonquilla Baby Moon, Kedron, Sweet Smiles</p>
	<p><b>Division 8 - Tazetta daffodil cultivars</b></p> <p>Three to twenty flowers to a stout stem. The petals are spreading and not reflexed. Usually fragrant.</p> <p>E.g. Minnow, Avalanche, Silver Chimes</p>
	<p><b>Division 9 - Poeticus daffodil cultivars</b></p> <p>Usually one flower to a stem. The petals are pure white and the trumpet is very short or disc shaped, usually with a green and/or yellow centre and a red rim, but sometimes of a single colour. Usually fragrant. E.g. Actea</p>
	<p><b>Division 11 - Split corona daffodil cultivars</b></p> <p>Trumpet split; usually for more than half its length. There are two sub divisions, Collar and Papillon.</p>
	<p><b>Collar daffodil</b></p> <p>Split-trumpet with the trumpet segments opposite the petal segments: the trumpet segments usually in two whorls of three.</p> <p>E.g. Pentire, Belcanto</p>
	<p><b>Papillon daffodil</b></p> <p>Split-trumpet daffodils with the trumpet segments alternate to the petal segments; the corona segments usually in a single whorl of six.</p> <p>E.g. Papillon Blanc</p>
